EVERY EZ CLAW PRODUCT IS RUGGED, LIGHTWEIGHT, AND BUILT TO LAST

The EZ Claw® System is the premier automatic extension and retraction system for protecting power cords, airlines, and hydraulic hoses for the life of your truck.

Easy to install, the system is designed specifically to eliminate the costly and dangerous chaffing, crimping, snags and unplanned disconnects of your air hoses and power cords.

Connect and protect your power cords and airlines with ease, while preventing the unscheduled maintenance, highway breakdowns, and costly downtime that come with unreliable tracker bars and springs.
